**Presented by a renowned
teacher who has been there...**

Fast Aid Success Systems was founded by Michael Farias, a lifelong plumbing contractor who has built several successful plumbing companies from the ground up. He began his career in the plumbing industry in 1970 as a plumber’s helper. At the young age of 24 he earned his plumbing contractor’s license and went into business for himself. During his early years he observed the difficulties and struggles of fellow plumbing contractors and he knew there must be a better way. He wanted to do more than just work a job; he wanted to build a business he could be proud of and, eventually, share with others how to do it. Through trial and error, he spent over a decade developing systems for success. His systems have allowed him to develop and grow several successful plumbing companies. Today he runs an award winning multimillion dollar company and now he is ready to share his systems with you. We will show you how to overcome the challenges that are unique to the service and repair sector of the industry and teach you how to capitalize on the opportunities available.

Mike is a published author and gifted teacher and has spoken at gatherings all over California and Nevada. Mike and his wife have three children, two of whom are in the plumbing business.

Don't miss this life changing event

Imagine:

- ✓ Attracting “easy” customers who will thank you and even smile as they hand you payment
- ✓ Having both time and money to enjoy yourself, your spouse and your family
- ✓ Being exceedingly successful in your career and life

No matter whether you want to attract more and more customers or you just want to finally take it easy, this workshop can show you how to do it.

This all sounds unbelievable doesn't it? The stuff of dreams, fiction and movies? This could never happen to just an ordinary plumber could it? Especially one lacking in education, money, charisma or skills?

Wrong! Wrong! Wrong!

The truth is it can and should happen to you, you just don't know how to do it yet!

The average plumber can do this as sure as the sun rises in the east and sets in the west.

Why am I willing to guarantee this with a no questions asked money back guarantee if you are not fully satisfied? Why am I willing to risk my time and money to present these secrets to you for only \$199.00? Because I know what these secrets and systems have done for me and my family and you can do it too.

- ✓ Do you wish your business was more profitable?
- ✓ Are you carrying most of the load or all of the load by yourself?
- ✓ Do you struggle with “what to do”?
- ✓ Are you stuck on a no growth plateau?

Learn how a small market plumbing service company was recognized as a “fastest growing company” three years in a row by the *Sacramento Business Journal*, the *East Bay Business Times* and *Inc. 5000* and made the front cover of the *Reeves Journal*.

Are you concerned about retirement? Are your prices too low? Are your profits shrinking or nonexistent? If you answered yes to any of these questions, **Don't Miss This once in a lifetime opportunity to learn how to take your struggling business to the next level.** Take it to the top!

What Others Are Saying...

“I attended Mike's training and was wowed by what I didn't know. His way of doing business makes it easy. My business is growing thanks to what Mike taught me. Well worth the investment. Using Mike's systems has caused us to go from a Volkswagen mentality to a Mercedes Benz.”
~J. F., North Valley Plumbing, CA

“I had been in the new construction industry for years, but was never able to make the transition to the more stable, more profitable service and repair sector. Mike gave me the tools and systems to get us into service and repair and make us successful. We're growing faster than we could have imagined, and in this economy that says a lot.”
~T. Holmes, Holmes Construction, CA

“Mike's method of running a plumbing service company really works. I have spent days with him on the golf course and I was amazed that his company actually runs without him having to be there. It works without him having to work it.”
~R Cottam, B.F. Plumbing, CA

“We tried for years to convert our 50 man new construction company to service work, but we weren't successful. We knew we needed help. Then I heard of Mike and the opportunity to learn from him. We implemented his training nearly 5 years ago and we are now the top plumbing service company in our area.”
~B. Munson, Paragon Plumbing, Reno, NV

“Very well presented. Thank you for the opportunities you have shown me.”
~R.V. Plumbing, Sherwood, OR
