Don't miss this life changing event

Imagine:

- ✓ Attracting “easy” customers who will thank you and even smile as they hand you payment
- ✓ Having both time and money to enjoy yourself, your spouse and your family
- ✓ Being exceedingly successful in your career and life

No matter whether you want to attract more and more customers or you just want to finally take it easy, this workshop can show you how to do it.

This all sounds unbelievable doesn't it? The stuff of dreams, fiction and movies? This could never happen to just an ordinary plumber could it? Especially one lacking in education, money, charisma or skills?

Wrong! Wrong! Wrong!

The truth is it can and should happen to you, you just don't know how to do it yet!

The average plumber can do this as sure as the sun rises in the east and sets in the west.

Why am I willing to guarantee this with a no questions asked money back guarantee if you are not fully satisfied? Why am I willing to risk my time and money to present these secrets to you for only \$199.00? Because I know what these secrets and systems have done for me and my family and you can do it too.

- ✓ Do you wish your business was more profitable?
- ✓ Are you carrying most of the load or all of the load by yourself?
- ✓ Do you struggle with “what to do”?
- ✓ Are you stuck on a no growth plateau?

Learn how a small market plumbing service company was recognized as a “fastest growing company” three years in a row by the *Sacramento Business Journal*, the *East Bay Business Times and Inc. 5000* and made the front cover of the *Reeves Journal*.

Are you concerned about retirement? Are your prices too low? Are your profits shrinking or nonexistent? If you answered yes to any of these questions, **Don't Miss This once in a lifetime opportunity to learn how to take your struggling business to the next level.** Take it to the top!

Presented by a renowned teacher who has been there...

Fast Aid Success Systems was founded by lifelong plumbing contractor, Michael Farias, to help plumbers turn their dream of running a successful plumbing company into a reality. Mike began his career in the plumbing industry in 1970 as a plumber's helper. He founded several plumbing companies and worked hard in them, but he knew there had to be a better way. He began developing systems to run his company more efficiently and profitably and, after a decade of trying and testing programs, he had his systems for success.

In 2005 he founded Fast Aid Success Systems so he could share his systems with other plumbing contractors. At Fast Aid, we know firsthand the difficulties of running a profitable business in this industry because we've been there. We will show you how to overcome the challenges that are unique to the service and repair sector and teach you how to capitalize on the opportunities available. Fast Aid Success systems can help you run the business of your dreams and create the retirement you desire.

If you want to take the stress out of running your company, work fewer hours, make more money, have a plan for retirement and learn how to run a successful plumbing business, Fast Aid Success Systems can help.
